DETAILED ACTION

Claim Rejections - 35 USC § 102

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

1. Claims 1-2 are rejected under 35 U.S.C. 102(b) as being anticipated by Park(US 5,761,302).

Claims 1: Park disclose a recording medium readable by an information processor, having at least digital sound and a program for controlling the reproduction of the digital sound data separately recorded wherein the digital sound is encrypted in (fig.5). Park discloses a decrypting method and key information for decrypting the encrypted digital sound data is recorded in the program for controlling the reproduction of the digital sound data in (fig.5 and col.2,lines 20-26).

Claim 2: Park discloses an area where encrypted digital sound data is recorded and an area where a program for controlling operation of the information processor is recorded in (fig.11A-D;col.2,lines 56-67;col.3,lines 1-3). Park discloses a decrypting method and key information for decrypting the encrypted digital sound data recorded in the program for controlling the reproduction of the digital sound data in (fig.5 and col.2,lines 20-26).

Allowable Subject Matter

2. Claims 4,5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Applicant's arguments

4. Claims 1-2,4-5 are pending. The previous grounds of rejection based on the Schull and Kyle patents are withdrawn in view of Applicant's arguments in the Amendment filed on 05/08/06. However, newly discovered prior art has necessitated new grounds of rejection. The new grounds of rejection are presented above. The delay in citation of the newly discovered prior art is regretted.
